"A friendly, efficient service"

TO THE TRADE

This List Cancels All Previous Lists

Packing. Net F. O. B. our shipping points. Packing charges are extra. We make no charge for packing car lot orders in bulk.

Notice!

We anticipate that there will be many shortages before the Planting Season is over. All prices in this list are subject to change without notice. All quotations are made for immediate acceptance and with the understanding that all orders placed by us with our shippers are placed subject to shipper having stock on hand at the time your order is received. We advise you to place all orders early.

PRICES ARE SUBJECT TO CHANGE WITHOUT NOTICE

Orders are accepted on condition that they shall be void should stock become injured by frost or other causes beyond our control. We cannot be responsible for loss caused by damage or delay in transit. If such damage occurs, it must be reported and entered immediately with your local agent of the transportation company.

➡ See Notice Inside Back Cover ←

CLAIMS for error or shortage will be gladly corrected, but we must be notified within TEN DAYS after arrival of the stock. Such claims must be based upon an actual check of material at the time shipment arrives and not after it has been sold or lined out. Positively no claims will be allowed unless we (or the shipper) are notified within 10 days of arrival of the shipment.

Quantity Discount. 10 to 30 plants furnished at the 10 rate, 30 and up at the 100 rate and 250 at the 1,000 rate.

Guarantee. Prices do not include any guarantee of growth whatever.

Terms. All accounts are due and payable 30 days from date of invoice. Cash, security, or satisfactory Trade References will be required from unknown parties. Interest at 6% will be charged upon all past due accounts.

Where quantity ordered is of sufficient amount we can arrange for shipment by motor freight at prevailing rates. Our favorable locations make it advantageous for our customers to come with their trucks and take away their purchases.

Our Service

We always use the greatest care in placing orders for material where we believe the customer's interests will be best served as regards transportation, etc. Sometimes we receive orders for material of which we are either sold out or do not list. In such cases we fill the order, if possible, from the nearest source of dependable stock. This service, we believe, means much to our customers, especially during the busy planting seasons.

Stoveken Pyramidal Yew

We consider this new pyramidal variety, originated by the late Alexander M. Stoveken at A. N. Pierson's in Cromwell, Conn., to be the best Pyramidal Yew on the market. A narrow pyramid in shape with exceptionally fine dark foliage, it has proven hardy in this area for the past fifteen years.

| | | |

Halloran Yew (New)

TAXUS media *HALLORAN STRAIN*
 A variety of much promise. We strongly advise that you try a few of these plants. A hardy Yew of fine foliage. As a young plant it is of a broadly upright habit of growth but as an older plant it develops into more of a spreading type with a high, full center. As this variety becomes better known, we anticipate a heavy demand for it.

Designed for many of the woody and semi-woody types.

1 lb. tin each..... \$4.50

Powder No. 3

Designed for the more resistant species including many evergreens and dormant leafless cuttings.

½ lb. tin each..... \$4.50

Japanese Beetle Inspection

All plants shipped outside the Japanese beetle quarantined area are accompanied with a Japanese beetle certificate. All balled and burlapped plants are shipped from treated soil. We can supply such certificate on all types of deciduous stock. We can supply these Evergreens only with such certification; Arborvitae in variety, Taxus in variety, and Canada Hemlock.

LINING OUT STOCK

Please refer to our list of liners on pages 39 to 43, both Deciduous and Evergreen.

CRIMSON KING MAPLE

ACER Schwedleri nigra

(Plant patent No. 735)

This is unquestionably the best purple leaved Maple so far introduced. It carries deep colored foliage from early summer until leaves drop in the Fall.

We are now sold out on our supply for Fall 1951 and Spring 1952. Can accept orders for Spring 1953 only. Would be pleased to receive your order for 1953 shipping date now.

MORAINE LOCUST

(Plant Patent No. 836)

Moraine Locust, Siebenthalers' new patented seedless, thornless variety, fills a real need for nurserymen. Use it as you would elms—as a graceful accent for informal lawn borders or background plantings, as a stately specimen shade tree, as a frame for a scenic vista, or in spaced plantings along streets, campus drives or in memorial parks.

Minimum Maintenance. Absence of seed pods and the small size of Moraine Locust leaflets, make it ideal for shade tree plantings where easy maintenance is important. Round-headed when young, it grows tall and vase shaped when older, with lower branches ascending, so that little pruning is needed to take care of traffic clearance. The shape of the tree and the laciness of its compound leaves let sunlight filter through to encourage lawn grasses.

Hardy, Disease-Resistant. Thirty-five records show Moraine Locust trees to be resistant to disease and insect damage, tolerant of storms, drouth and imperfect drainage conditions. Vigorous and fast growing, Moraine Locust is easy to transplant, easy to feed . . . a tree you can be proud to recommend to your customers.

HYBRID BLUEBERRIES

We have a fine supply of this popular item, both in heavy plants potted in paper pots and dormant rooted from the field. We have all grades from liners to large 2-3 ft. plants balled and burlapped. If interested please write us for our list of varieties and prices.

ROSES

We will have a good assortment of *Hybrid Tea*, *Climbing* and *Polyantha Roses* for shipment from reliable growers. Our Rose shipments have always given satisfaction and this coming season the quality will be exceptionally good. We can supply *both dormant rooted and wrapped Roses*. Will be glad to quote upon your requirements. We will have our usual supply of *Potted Roses for shipment about May 15, 1952*. Roses are in short supply. We advise you to order early.

JOIN THE A. A. N.

To all our customers who are members of the American Association of Nurserymen, it is not necessary to call attention to the fine service being rendered by that organization to our entire industry. But to you who are not members, let us say that you are missing a service which is worth many times its cost. You should belong and get this service for your own benefit. We hope that all nurserymen, who have not already done so, will send in their request for an application blank to Richard P. White, Secretary, American Association of Nurserymen, Room 636 Southern Building, Washington 5, D. C. (or if you prefer you may send this request to our office).

NOTICE

All agreements and contracts are subject to ability of shipper to obtain the necessary manpower to dig and pack material and to priorities on material and transportation which may limit, restrict or make impossible performance thereunder.

TO OUR CUSTOMERS

Our office will be open at all hours of the day and night during the busy shipping season to answer phone calls and receive telegrams. This, together with our very fine mail service in Wallingford, enables us to give you the quickest possible service in getting rush orders placed to our various shipping points.

LINING OUT STOCK

Please refer to our list of Liners (both Evergreen and Deciduous) on Pages 39 to 42. This list of Lining Out Stock is changing rapidly but is approximately correct as of Sept. 1st, 1951. We urge you to place your orders as soon as possible for this type of material. All potgrafts will not be ready for shipment until May 1st, 1952. All other material may be shipped Fall, 1951 and Spring, 1952 when ready.
